Lifetime Maximum	Unlimited	Unlimited
Coinsurance	Plan pays 80% coinsurance	Plan pays 80% coinsurance
Maximum Reimbursable Charge Out-of-Network services are subject to a Calendar Year deductible and maximum reimbursable charge limitations. Payments made to health care professionals not participating in Cigna's network are determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or a percentage (200%) of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule is not used, and the maximum reimbursable charge for covered services is determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. The health care professional may bill the customer the difference between the health care professional's normal charge and the Maximum Reimbursable Charge as determined by the benefit plan, in addition to applicable deductibles, co-payments and coinsurance. Calendar Year Deductible <ul style="list-style-type: none"> Only the amount you pay for in-network covered expenses counts toward your in-network deductible. The amount you pay for out-of-network covered expenses counts toward both your in-network and out-of-network deductibles. After each eligible family member meets his or her individual deductible, covered expenses for that family member will be paid based on the coinsurance level specified by the plan. Or, after the family deductible has been met, covered expenses for each eligible family member will be paid based on the coinsurance level specified by the plan. Case Management

Coordinated by Cigna HealthCare. This is a service designated to provide assistance to a patient who is at risk of developing medical complexities or for whom a health incident has precipitated a need for rehabilitation or additional health care support. The program strives to attain a balance between quality and cost effective care while maximizing the patient's quality of life.

Definitions

Coinsurance - After you've reached your deductible, you and your plan share some of your medical costs. The portion of covered expenses you are responsible for is called coinsurance.

Copay - A flat fee you pay for certain covered services such as doctor's visits or prescriptions.

Deductible - A flat dollar amount you must pay out of your own pocket before your plan begins to pay for covered services.

Out-of-Pocket Maximum - Specific limits for the total amount you will pay out of your own pocket before your plan coinsurance percentage no longer applies. Once you meet these maximums, your plan then pays 100 percent of the "maximum reimbursable charges" or negotiated fees for covered services.

Prescription Drug List - The list of prescription brand and generic drugs covered by your pharmacy plan.

Transition of Care - Provides in-network health coverage to new customers when the customer's doctor is not part of the Cigna network and there are approved clinical reasons why the customer should continue to see the same doctor.

In-network care

Using doctors, hospitals and facilities that participate in the Cigna network can save you money. In addition, choosing Cigna Care designated specialists - doctors in 19 specialties who have been identified for their superior performance in quality and cost efficiency - may save you even more. You can verify that a doctor or facility is in Cigna's network and learn more about the Cigna Care designation by checking the directory on myCigna.com or Cigna.com, or by calling the customer service number on the back of your Cigna ID card. Cigna is open 24/7.

Urgent care

(Average urgent care center cost \$131 / Average hospital ER cost \$1,523)

Many people use the emergency room (ER) for conditions that are not serious or life-threatening. Using an urgent care center or your doctor's office instead of an ER can save you hundreds of dollars and provides the same quality of care as an ER. If you need care and are not sure if you need to go to the ER, speak with your doctor or call Cigna's 24-hour nurse line at the number on the back your Cigna ID card to determine the most appropriate location for urgent care.

Convenience care or retail clinics

(Average convenience care clinic cost \$61 / Average hospital ER cost \$1,523)

Convenience care clinics provide quick and easy access to high quality treatment for common medical conditions when your doctor is not available. These clinics are located in department stores, grocery stores and pharmacies. To locate convenience care clinics, you can check the Directory on myCigna.com or Cigna.com, or call the customer service number on the back of your Cigna ID card. Cigna is open 24/7.

Laboratory and pathology tests

(Average LabCorp/Quest cost \$9 / Average other lab cost \$24 / Average outpatient hospital lab cost \$48)

Two of the nation's largest and most prominent laboratories, Quest Diagnostics, Inc. (Quest) and Laboratory Corporation of America (LabCorp), participate in the Cigna network. Services at these labs can cost 70-75% less and offer the same or better quality than hospital laboratories. When you need lab services, discuss these options with your doctor. To find the nearest Quest and LabCorp locations, check the directory on myCigna.com or Cigna.com.

Radiology services (MRI or CT scan)

(Average independent radiology facility cost \$591 / Average outpatient hospital cost \$1,198)

If you need to have an MRI or CT scan, you can save hundreds of dollars by using an independent radiology center. While Cigna contracts with all types of facilities that provide radiology services, using independent radiology centers will save you money, without any difference in quality. Discuss location options with your doctor. For help locating the most cost effective facility in which to have an MRI or CT scan, you can use the cost comparison tools on myCigna.com or call the customer service number on the back of your Cigna ID card.

Colonoscopy, endoscopy or arthroscopy

(Average freestanding surgery center cost \$1,438 / Average outpatient hospital cost \$2,821)

When a doctor recommends a colonoscopy, GI endoscopy or arthroscopy, make sure you know your options. Using a freestanding outpatient surgery center for these procedures instead of a hospital can often save hundreds of dollars, while maintaining the same high quality as a hospital. Talk with your doctor about options. For help locating the most appropriate facility, you can use our cost comparison tools on myCigna.com or call the customer service number on the back of your Cigna ID card.

Cigna Home Delivery Pharmacy

You can save money and enjoy convenient home delivery by using Cigna Home Delivery Pharmacy for your prescription medications. You can get up to a 90-day supply of your medication.

Exclusions

What's Not Covered (not all-inclusive):

Your plan provides for most medically necessary services. The complete list of exclusions is provided in your Certificate or Summary Plan Description. To the extent there may be differences, the terms of the Certificate or Summary Plan Description control. Examples of things your plan does not cover, unless required by law or covered under the pharmacy benefit, include (but aren't limited to):
