# METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM

FY 2020 - 2023

*Prepared by*  
Casper Area Metropolitan Planning Organization

*in coordination with*  
Wyoming Department of Transportation  
Federal Highway Administration  
Federal Transit Administration

*Approved by the MPO policy Committee on July ??, 2020*

**Paul Bertoglio** | Natrona County Commissioner

**Seth Coleman** | Mayor of Mills

**Patrick Ford** | Mayor of Bar Nunn

**Jennifer Sorenson** | Mayor of Evansville

**Bob Hopkins** | Casper City Councilman

**Carter Napier** | Casper City Manager

**Mark Ayen** | WYDOT District Engineer

*Ex-Officio*

**Steve Kurtz** | CATC/The Bus Board Member

**Glenn Januska** | Casper/Natrona County International Airport Manager

**Julianne Monahan** | WYDOT Planning and Policy Analyst

**Walter Satterfield** | FHWA Planning and Right-of-Way Program Manager

## INTRODUCTION

Each year, the Casper Area Metropolitan Planning Organization (MPO) receives federal funding from the Federal Highway Administration (FHWA) and the Federal Transportation Administration (FTA), which is used to fund a portion of the area's highway construction, planning projects, and transit programs. Regulations established by FHWA and FTA require that all urbanized areas develop a Metropolitan Transportation Improvement Program (TIP) in order to avoid duplication planning and funding. Development of the TIP is a prerequisite to receiving federal funds.

This TIP covers four Federal Fiscal Years (FYs), from FY 2020 through 2023. This period covers October 1, 2020, through September 30, 2023. FY 2020 is the annual element. The annual element is a list of projects proposed for implementation during the first year of the program. The TIP includes capital, planning, and administration projects. The TIP provides a framework for the efficient expenditure of transportation funds in a manner consistent with local needs and priorities during the planning period.

FIGURE 1. Platte River Trail which stretches from Evansville to Mills and West Casper.

The current TIP was developed through committee work with input from citizens, local organizations, municipalities, and the state, via the MPO. The document lists projects which citizens and committee members have prioritized for construction or administration during the next four years. These projects include highway, Transportation System Management (TSM), transit, and pedestrian-related projects. The projects shown in the TIP are also components of the State Transportation Improvement Program (STIP). The TIP, therefore, implements the various goals and objectives included in the STIP.

As discussed above, the current TIP covers Federal FY 2020 through 2023. All projects are fiscally constrained. These projects are reviewed and reevaluated each year. During the reevaluation process, projects are added depending upon community need. Projects are deleted if they are complete, under construction, or no longer necessary.

## HISTORICAL OVERVIEW

### CASPER AREA TRANSPORTATION PLANNING PROCESS

The Casper Area Transportation Planning Process (CATPP) was initiated in 1962 at the request of the City of Casper in order to provide cooperative, comprehensive, and continuing transportation planning to the Casper urbanized area. These jurisdictions presently include the City of Casper; Towns of Evansville, Mills, and Bar Nunn; the County of Natrona; and the Wyoming Department of Transportation (WYDOT). An organizational chart for the MPO is provided on Page 8. Initial planning efforts conducted by a consultant were completed in 1964 and resulted in the production of the Casper Major Street and Highway Plan.

## METROPOLITAN PLANNING ORGANIZATION

In 1982, when the City of Casper exceeded 50,000 residents, the Casper Metropolitan Area was designated as an MPO. The Metropolitan Planning Organization (MPO) was designated by the Governor in 1982 as the successor to the CATPP. To this end, the MPO invited the various jurisdictions within the Casper urbanized area to join in the transportation planning process. The MPO includes various committees consisting of a Policy Committee, Technical Advisory Committee, and Citizens' Transportation Advisory Committee, and their Subcommittees. These groups identify and analyze transportation needs within the metropolitan area, and establish transportation policy. All recommendations must be approved by official action of appropriate constituent agencies.

## FIXING AMERICA'S SURFACE TRANSPORTATION (FAST) ACT

The FAST Act was signed into law on December 4, 2015 by President Obama. It is the first federal law in over a decade to provide long-term certainty for surface transportation infrastructure planning and investment. The FAST Act authorizes \$305 billion over fiscal years 2016 through 2020. In keeping with prior highway transportation legislation identified in MAP-21, the goals are:

- A. **Improving Safety**—To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
- B. **Maintaining Infrastructure Condition**—To maintain the highway infrastructure asset system in a state of good repair.
- C. **Reducing Traffic Congestion**—To achieve a significant reduction in congestion on the national highways system.
- D. **Improving System Reliability**—To improve the efficiency of the surface transportation system.
- E. **Freight Movement and Economic Vitality**—To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- F. **Protecting the Environment**—To enhance the performance of the transportation system while protecting and enhancing the natural environment.

Figure 2. Intersection in Mills that was recently completed.

- G. **Reducing Delays in Project Delivery**—To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

The FAST Act requires that a Transportation Improvement Plan (TIP) be developed for each metropolitan area by the MPO in cooperation with the State and transit operators. The TIP must be developed to make progress toward established performance targets and include a

description of the anticipated achievements. The TIP must be updated and approved at least every two years by the MPO and the Governor. It must include all projects (including pedestrian walkways and bicycle facilities) to be funded under Title 23 and the FTA. There must be reasonable opportunity for public comment prior to approval. The TIP must include a priority list of projects to be carried out in each three-year period after initial adoption of the TIP, and a financial plan that demonstrates how it can be implemented. It must be consistent with funding reasonably expected to be available during the relevant period. Projects in the TIP must be consistent with the long range transportation plan. In developing the TIP, the MPO shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. (23 USC 134(a)&(h)/FTA-Sec 8(a)&9(h)).

Figure 3. Antelope Blvd in Bar Nunn . The streets were once runways. Photo courtesy of Town of Bar Nunn.

The FY 2020-2023 TIP has been prepared in accordance with provisions contained in the FAST Act. Specific requirements covered by the TIP are discussed in the sections below.

- **Development.** The Casper Area MPO has developed its FY 2020-2023 TIP in cooperation with the State of Wyoming and affected transit operators.
- The MPO has developed the TIP using its 20-year Metropolitan Area Planning Boundary. The 20-year Metropolitan Area Boundary was developed, reviewed, and approved by the MPO Technical Committee and Policy Committee with guidance from FHWA and WYDOT.
- In preparing the TIP, the MPO shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program.
- The MPO plans to update the program at least once every two years. The TIP shall be approved by the MPO Technical and Policy Committees.
- **Priority of Projects.** The FY 2020-2023 TIP includes the following:
  - A priority list of projects and project segments to be carried out within a four-year period after adoption of the program.
  - A financial plan that demonstrates how the TIP will be implemented.
- **Selection of Projects.** Project selection involving Federal participation has been carried out by the State in cooperation with the Casper Area MPO, and conforms with the TIP for the Metropolitan area.
- **Included Projects.** It is anticipated that the program includes only those projects and phases for which anticipated funding exists, or can reasonably be expected within the time period contemplated for completion of the project.
- **Notice and Comment.** Through display ads in the *Casper Star Tribune*, the MPO has provided citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with reasonable notice of and an opportunity to comment on the proposed program. The public and press were invited to attend the

public meeting to receive information on the TIP.

- A public meeting was held on July 17, 2019 to consider the preliminary draft of the FY 2020-2023 TIP. The MPO also had a copy of the preliminary draft available for public review at its office and on its website.
- The MPO assumes that the same amounts of Surface Transportation Program Urban funds are available for construction projects in Fiscal Years 2020 – 2023.
- Per the MPO's 2013 Master Agreement, minor revisions to the TIP may be executed by the MPO Policy Committee through email. Minor Revisions are to be executed by the MPO Supervisor. Minor revisions include those items in which no additional funding is required and for which there are no changes in scope. The TIP will be regularly amended every two years; other major amendments may be undertaken at any time upon a full review by the MPO Policy Committee.

## TRANSIT PROJECTS

Figure 4. "The Bus," Courtesy City of Casper.

The MPO has developed the transit projects contained in the TIP in cooperation with the City of Casper and transit providers in the Metropolitan area. In addition to inviting transit providers to the public meeting discussed above, the MPO invited private carriers and any other persons interested in transit provision to attend a meeting to develop a private sector consultation process, as required by the FTA.

Public notice of public involvement activities and time established for public review and comment on the TIP

will satisfy the Program of Projects requirements of the Section 5307 Program.

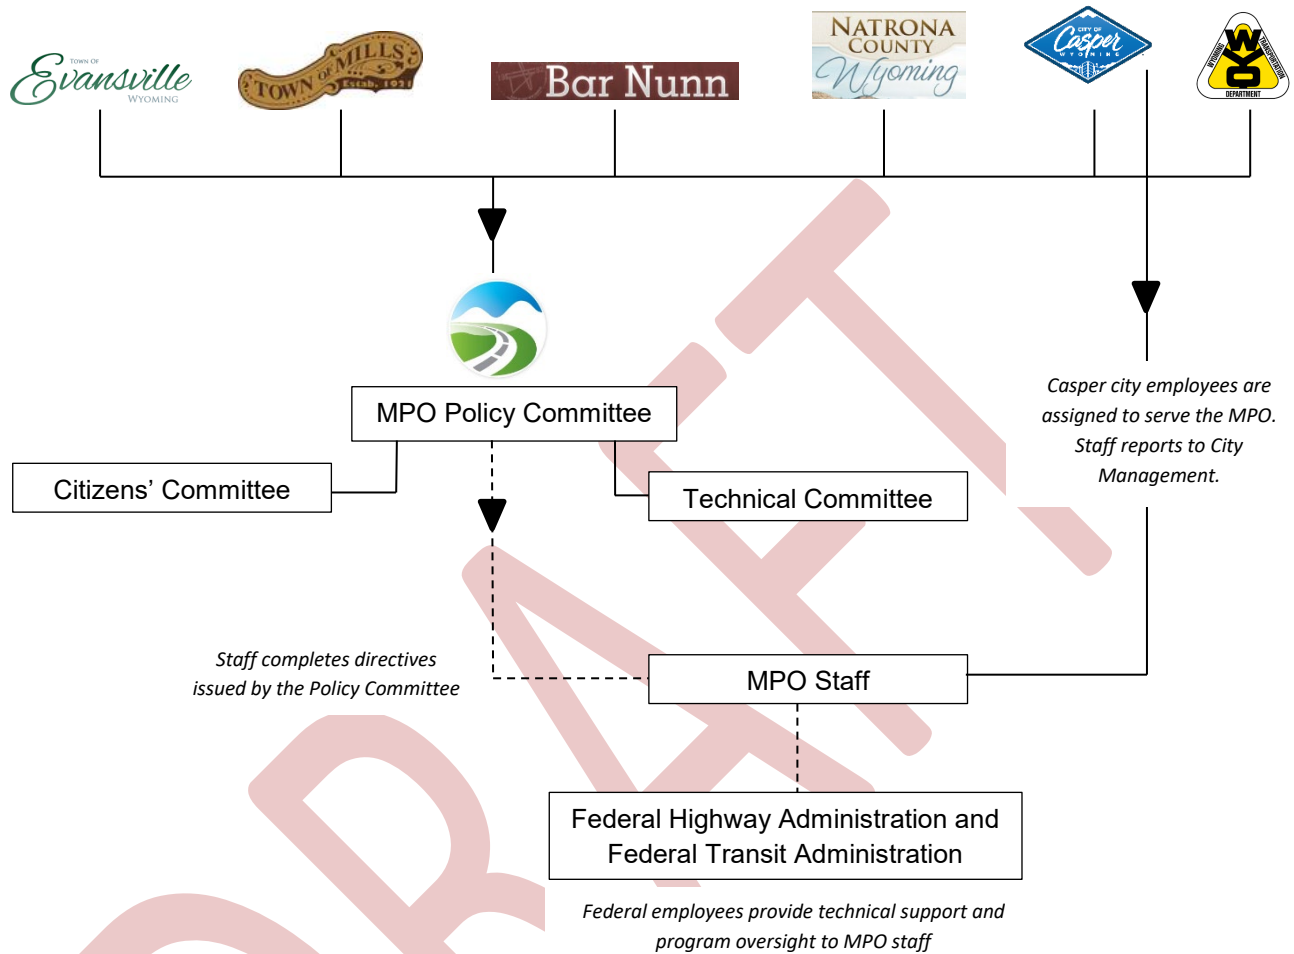

## COOPERATION WITH WYDOT

The MPO has prepared the FY 2020-2023 TIP in cooperation with WYDOT. The TIP includes State projects that are located in the MPO Metropolitan Planning Boundary. The MPO and WYDOT will continue to work together to coordinate planning activities, as required by the FAST Act.

## TRANSPORTATION ALTERNATIVE PROGRAM

The MPO recognizes that Transportation Alternatives Program (TAP) funds provided under the FAST Act are the responsibility of WYDOT. While the MPO may prioritize and suggest enhancement projects to WYDOT, the MPO has informed all applicants that eventual funding and design/construction of these projects is contingent upon their final review and approval by WYDOT. The TIP contains a listing of TAP projects that will be submitted to WYDOT.

## ORGANIZATION CHART

## PROGRAM DEVELOPMENT

### PROGRAM CATEGORIES

Because of limited funding and the need to implement the TIP, projects are selected for inclusion in the TIP using the following classifications:

- Capital projects including streets and highways construction and rehabilitation
- Transportation Systems Management (TSM)
- Pedestrian Safety and Mobility
- Trails and Bikeways
- Transit

### PROJECT SELECTION

Capital Projects: Projects are included in the TIP based on physical condition, traffic volume, and safety. Only some of the capital projects included in the TIP are eligible to receive federal funds. Capital projects located on federal-aid highways as defined in Section 101 of Title 23, *United States Code*, are eligible to receive Surface Transportation Program Urban (STPU) funds. Project funding for eligible STPU projects is as follows:

Fund Source	Percent Share
FHWA Participation	90.49%
Local Participation	9.51%

Capital projects planned on local streets and roads within municipalities are not eligible to receive federal funding, and must be totally funded using local funds, or a combination of state and local funds.

### TRANSPORTATION SYSTEM MANAGEMENT (TSM)

TSM projects study the more productive use of existing arterials and connectors using traffic management strategies to increase roadway efficiency. These strategies include signal system synchronization, carpooling, and other similar methods to decrease traffic or to streamline traffic flow on existing street/roadway systems.

Figure 5. Tate Pump House and the Platte River Parkway. Courtesy Platte River Trails Trust.

## PEDESTRIAN SAFETY AND MOBILITY

In an effort to develop a safe interface between pedestrians and highway traffic, the MPO will consider those projects for funding which significantly decrease pedestrian/vehicular conflicts at various intersections and other hazardous locations.

## BIKEWAYS

The MPO will consider funding those projects which reduce vehicular/bicycle conflicts on area roadways, projects which establish street standards for trails, bikeways, and bicycle route development.

## TRANSIT

The MPO considers transit projects based on community need for public, elderly, and disabled transportation service. The MPO will work with appropriate groups in order to increase service based on ridership demand, and the need to improve operating efficiency. The FTA and local match is as follows:

Expense Type	FTA Grant	Local Match
<b>Capital Projects</b>		
ADA Accessible Projects	85%	15%
Other Projects	80%	20%
<b>Operations</b>		
Preventive Maintenance	80%	20%
General Operations	50%	50%
Planning	80%	20%

Additional funds to support transit operations are received from the Wyoming Department of Transportation on an annual appropriation basis.

## UNIFIED PLANNING WORK PROGRAM (UPWP)

The UPWP is developed each year and the projects described in the program are undertaken during the first year of the four-year planning period. The UPWP presented in this TIP covers Federal FY 2020, and allocates funding for the following projects:

- o Program Administration
- o Program Planning
- o Planning Studies
- o Planning Documents

Project funding for eligible MPO Planning work is as follows:

Fund Source	Percent Share
Consolidated Planning Grant	90.49%
Local Match	9.51%

## COMMUNITY PARTICIPATION

The Casper Area TIP is developed through the input of citizens, committees, community organizations, municipalities, and state agencies, and in compliance with the adopted “Public Participation Plan (PPP).” Through the process outlined below and using tools in the PPP, the MPO assigns project priorities as detailed in the TIP.

The MPO Technical Committee (Tech) reviews the TIP in order to remove those projects which are no longer useful or which have gone to construction. Tech also reviews the projects recommended by the Citizens’ Transportation Advisory Committee and evaluates them according to their overall merit and consistency with regional needs. Tech also may add various projects which are important to the urbanized area. Tech then forwards the TIP to the MPO Policy Committee for its review.

The MPO Policy Committee is charged with reviewing the comments and recommendations submitted to it by the Technical Committee. The Policy Committee makes the final determination on project selection, prioritization, and commitment of available funds. The MPO Policy Committee Chairman’s signature on the document certifies the Policy Committee’s approval of the document.

## PRIVATE SECTOR PARTICIPATION

The City of Casper contracts for transit service with the Casper Area Transportation Coalition (CATC), a private, non-profit organization. Each year requests for proposals are published for the provision of capital purchases. Proposals received from the private sector are evaluated on the basis of lowest bid. The City of Casper does not face any impediments to holding service out to competition, and has not received any complaints from the private sector during the past year.

## PUBLIC COMMENT

This document was posted on the MPO’s website from May 21, 2020 to July 1, 2020.

## PERFORMANCE MEASURES

Transportation planning has used performance measures for a long time, but the Federal Highway Act *Moving Ahead for Progress in the Twenty-first Century* (MAP-21) emphasized the linkage between performance measures and the allocation of resources. Performance-based planning encourages Metropolitan Planning Organizations (MPO), and the State Department of Transportation to allocate resources to those areas where improvements are needed. Identified performance measures monitor the performance of the system and should affect the allocation of additional resources. The current Federal Highway Act *Fixing America's Surface Transportation Act* (FAST) continues the requirement of linking performance to the planning and programming process. Congress approved five national priorities, which cover the performance of the transportation system, and two others were developed to evaluate the process of designing and constructing projects with Federal transportation funds. The national priorities are:

- **Safety** - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
- **Infrastructure Condition** - To maintain the highway infrastructure asset system in a state of good repair.
- **Congestion Reduction** - To achieve a significant reduction in congestion on the National Highway System.
- **System Reliability** - To improve the efficiency of the surface transportation system.
- **Freight Movement and Economic Vitality** - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- **Environmental Sustainability** - To enhance the performance of the transportation system while protecting and improving the natural environment.
- **Reduced Project Delivery Delays** - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

The FHWA worked extensively with the Wyoming Department of Transportation and the two Wyoming MPOs to prepare for the implementation of the required Performance Measures and Targets. On April 24, 2018 the Casper Area MPO Policy Committee approved an agreement for responsibilities in adopting and reporting federal transportation performance targets between the Casper Area MPO, the City of Casper, and the Wyoming Department of Transportation. The agreement was subsequently approved by Casper City Council on May 15, 2018

This following section lists the four main measures which the Casper Urban Area will track. They include Safety, Infrastructure Condition (pavement and bridge), Congestion Reduction (travel time and freight reliability) and Transit Asset Management. Each section shows the state's or MPO's target and current measure or condition for the last available data year (2017). In Tables 1 and 4 the project will identify which performance measure will be benefitted by the construction or application of that project if applicable.

## SAFETY

The five safety performance measures relate to the reduction of fatal and serious injury crashes including non-motorized. The Casper Area MPO has agreed to adopt WYDOT's targets as shown below.

Area	Measure	1-Year Target	Current Condition	Condition Year
Safety	Number of Fatalities	130	123	2017
Safety	Rate of Fatalities	1.400	1.264	2017
Safety	Number of Serious Injuries	470	382	2017
Safety	Rate of Serious Injuries	5.440	3.925	2017
Safety	Number of non-motorized fatalities and number of non-motorized serious injuries	30	28	2017

## INFRASTRUCTURE CONDITION

These include four performance measures on pavement conditions and two for bridge conditions. They identify the percentage of Interstate Highways in good and poor condition, the percentage of non-interstate National Highway System (NHS) in good and poor conditions and the percentage of NHS bridges in good and poor conditions. The Casper Area MPO has agreed to adopt our own targets as shown below.

Area	Measure	4-Year Target	Current Condition	Condition Year
Pavement	Percentage of Interstate pavements in good condition	10%	50.5%	2017
Pavement	Percentage of Interstate pavements in poor condition	25%	4%	2017
Pavement	Percentage of non-Interstate NHS pavements in good condition	5%	15.2%	2017
Pavement	Percentage of non-Interstate NHS pavements in poor condition	40%	10%	2017
Bridge	Percentage of NHS bridges in good condition	13%	17.9%	2017
Bridge	Percentage of NHS bridges in poor condition	50%	43.2%	2017

#### CONGESTION REDUCTION

These include two performance measures on the percentage of person-miles traveled where the Level of Travel Time Reliability (LOTTR) > 1.50. The LOTTR is the Ratio of 80<sup>th</sup> percentile to 50<sup>th</sup> percentile travel time (with overall system performance then normalized for length, volume, and vehicle occupancy). The one concerning freight movement is Truck Travel Time Reliability (TTTR). The TTTR is the ratio of the 95<sup>th</sup> percentile to the 50<sup>th</sup> percentile travel time (weighted by segment lengths). The Casper Area MPO has agreed to adopt our own targets as shown below.

Area	Measure	4-Year Target	Current Condition	Condition Year
Reliability	Percentage of person-miles traveled on the Interstate system that are reliable	0%	100%	2017
Reliability	Percentage of person-miles traveled on the non-Interstate NHS system that are reliable	90%	95.4%	2017
Freight	Truck Travel Time Reliability Index	2.23	1.23	2017

#### TRANSIT ASSET MANAGEMENT

Transit Asset Management (TAM) is a business model that uses the condition of assets to guide the optimal prioritization of funding at transit properties in order to keep our transit networks in a State of Good Repair (SGR). The purpose of the National TAM System is to keep our Nation's assets in a State of Good Repair (SGR). Consequences of not being in a SGR include: safety risks, decreased system reliability, higher maintenance costs, and lower system performance. The Casper Area MPO has agreed to adopt WYDOT's targets as shown below.

Area	Measure	1-Year Target	Current Condition	Condition Year
Transit	Rolling Stock Performance – Percentage of vehicles meeting or exceeding useful life benchmark for mileage	50%	68.8%	2017
Transit	Facilities Performance – Percentage of assets with condition rating at or above 3.0 on FTA TERM Scale	100%	100%	2017

## IMPROVEMENT TYPE

The following sections refer to three different types of transportation improvements. First, “Highway” projects refer to any project that primarily serves roadways classified as a collector or arterial within the metropolitan area. This section may also include projects funded through the Transportation Alternative Program (TAP), with a primary focus on improving bicycle, pedestrian, and trail facilities.

The second section is for public transit projects, which is currently operated by the Casper Area Transportation Coalition.

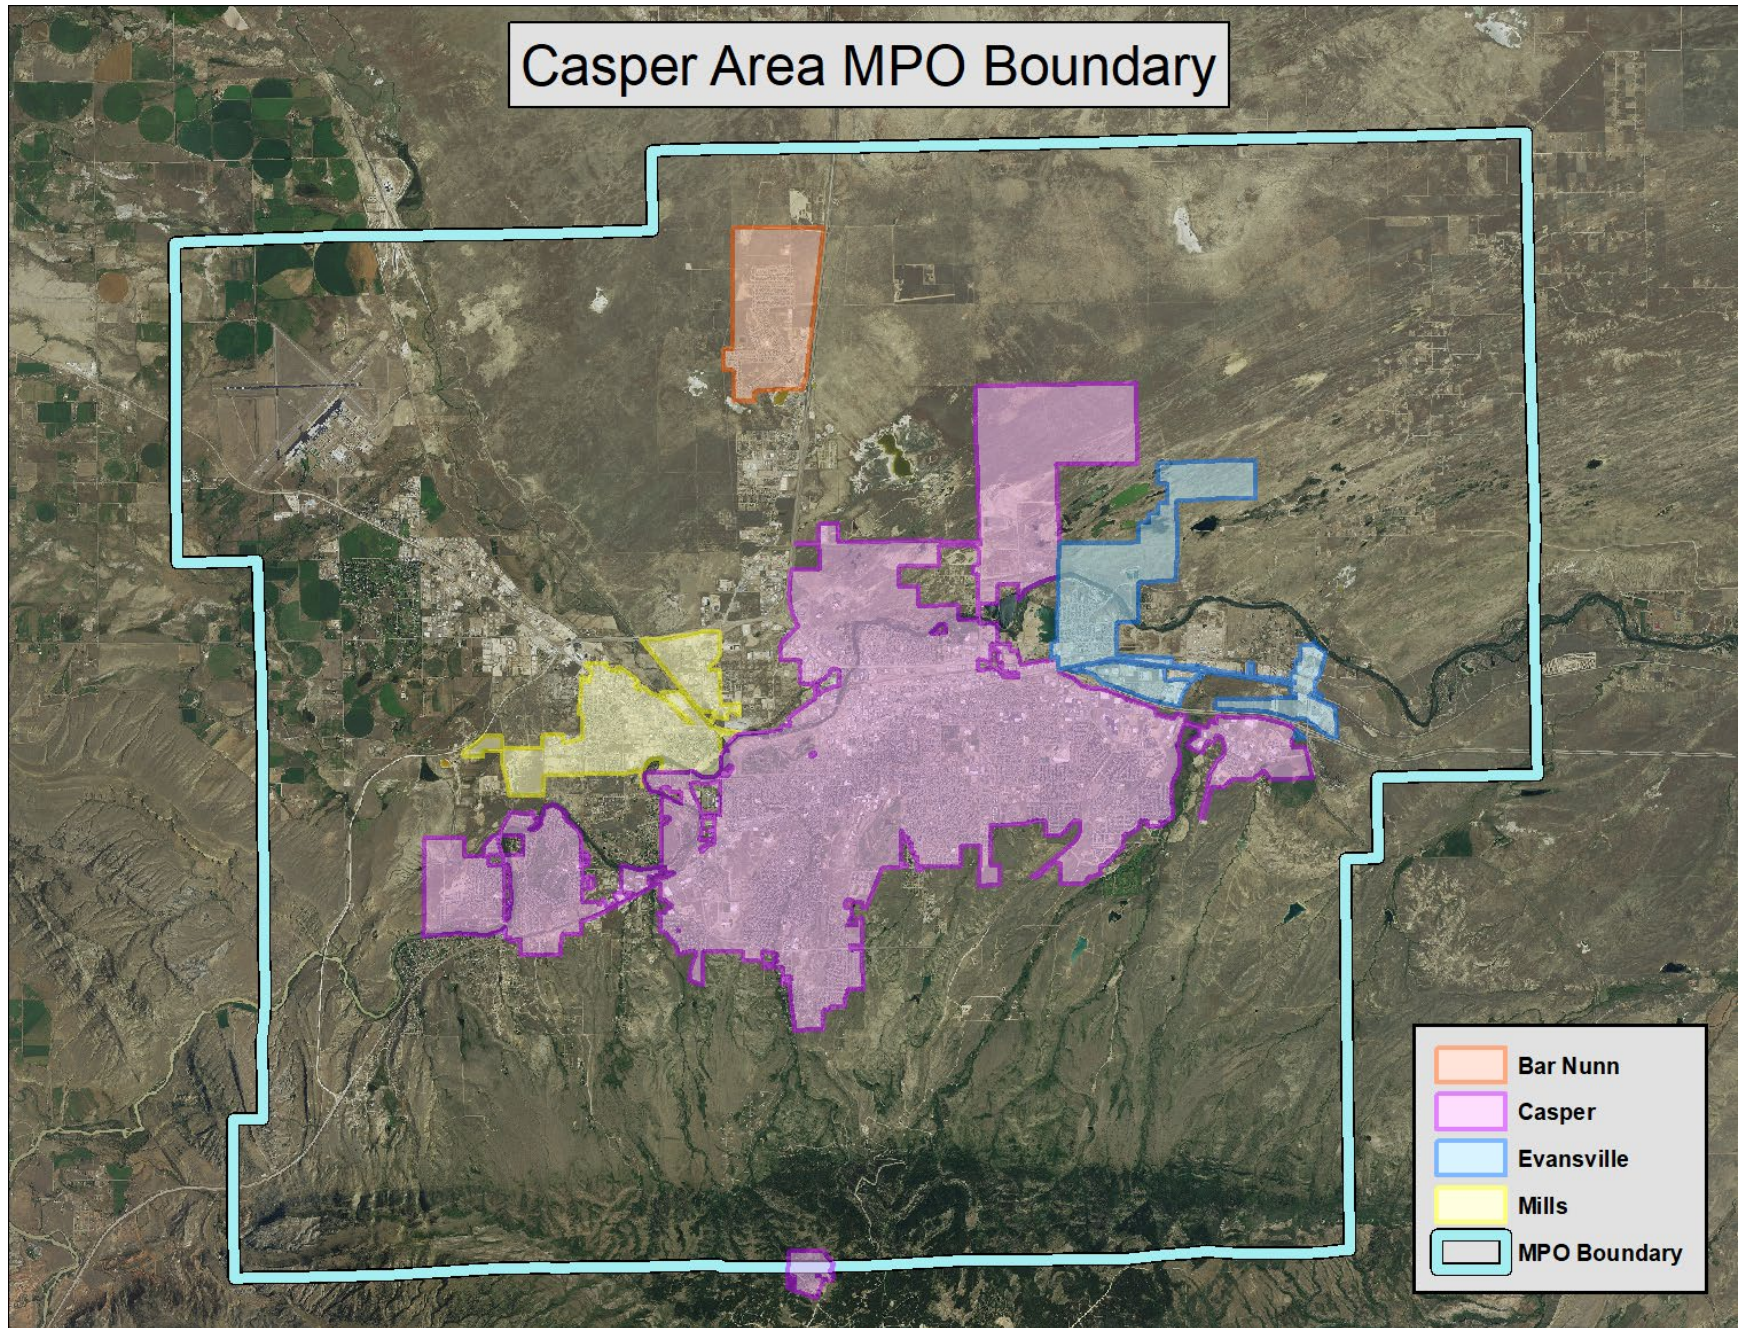

Each project has been given an identification number (PIN) that can be cross-referenced with actual project locations on a map. PIN numbers are simplified by using the first letter of the appropriate agency’s name followed by a set of numbers. For example:

Agency	PIN
Mills Project #1	M1
Casper Project #13	C4
WYDOT Project #10	W8
Transit Project #7	T6

Simply find the PIN number on the map and then refer to the following pages to obtain additional details of the project.

## OBLIGATION OF FEDERAL FUNDS

23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B) require:

“An Annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).”

The MPO produces a specific list of projects in the *Annual Listing of Federally Obligated Projects* by December 31 of each year.

## SUMMARY OF FEDERAL FUNDS IN THE MTIP

Federal Portion					
Program/Funding Source	2020	2021	2022	2023	TOTAL

## PROGRAM CERTIFICATION

The Casper Area Transportation Planning Process (CATPP), designated by agreement as the Metropolitan Planning Organization (MPO) for Casper, certifies that the planning process is addressing the major issues facing the area and is being conducted in accordance with all applicable requirements of:

- (1) 23, U.S.C., 134, 49 U.S.C. Section 5303, and 23 CFR Part 450;
- (2) Sections 174 & 176(c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506(c) and (d) and 40 CFR 93);
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 USC 2000d-1) and 49 CFR part 21;
- (4) 49 WSC 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;
- (5) Section 1101(b) of the FAST Act regarding the involvement of Disadvantaged Business Enterprises in FHWA and FTA funded planning projects (FAST Act Section 1101(b), 1109, 52004(4)(A); 23 USC 104(a), 140(b)-(c), 504(e), 49 CFR Section 26, Subtitle A);
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat. 327, as amended) and U.S. DOT implementing regulation;
- (8) Older Americans Act, as amended (42 USC 6101);
- (9) Section 324 of CFR 23, regarding prohibition of discrimination based on gender;
- (10) Section 504 of the Rehabilitation Act of 1973 and 49 CFR part 27 regarding discrimination against individuals with disabilities.
